JOB CODE : FLSTKJAREVY01 **Years of Experience:** 2-3 years

Full Stack Developer with Java and React (2–3 Years Experience)

We are seeking a Full Stack Software Engineer with 2 year of hands-on experience in Java and React to join our collaborative team. This role offers a supportive environment, opportunities to learn and grow, and exposure to cutting-edge projects, including AI-driven products for qualified candidates.

Key Responsibilities

As part of our supportive team, you will:

Contribute to the design and development of web applications using **Java (backend)** and **React (frontend)**.

Work closely with team members to deliver solutions that meet project goals.

Participate in collaborative problem-solving, testing, and debugging.

Share ideas and learn from peers while continuously improving your skills.

Support the team in maintaining high-quality standards through code reviews and documentation.

Stay engaged with new technologies and bring fresh perspectives to projects.

Education & Qualification

Education & Qualification

Degree: BE (Computer Science/Information Science/Electronics/related fields) or MCA

Graduation Year: 2024 or 2025

10th, 12th and Degree should be minimum 70%

Required Skills

3Strong knowledge of **Java**, Spring Boot, REST APIs.

Proficiency in **React.js**, JavaScript, HTML, CSS.

Familiarity with databases (MySQL, PostgreSQL, or similar).

Understanding of version control systems (Git).

Good communication skills and ability to work in a collaborative environment.

Flexible, eager to learn, and open to new challenges.

Java/React Full Stack Development : 2 to 3 years (Required)

Preferred Skills

Enthusiasm for exploring **Technologies** and applying them to real-world products.

Problem-solving mindset with attention to detail.

Ability to adapt quickly to dynamic project requirements.

Why Join Us?

- Great opportunities to learn and grow in a supportive environment.
- Exposure to cutting-edge projects, including **AI product development**.
- A culture that values curiosity, collaboration, and continuous learning.
